PROFILE

Siswa akhir jurusan Teknik Komputer dan Jaringan (TKJ) dengan pengalaman magang di bidang jaringan dan support sistem. Terbiasa menangani konfigurasi LAN, IP addressing, subnetting, instalasi Windows/Linux, troubleshooting konektivitas, serta dasar Docker dan Ansible. Mencari posisi entry-level di bidang jaringan atau IT support.

PENGALAMAN MAGANG

Network Technician Intern

PT Radnet Digital Indonesia

01 July 2025 – 30 November 2025

- Membantu konfigurasi jaringan LAN dan koneksi internet.
- Melakukan IP addressing dan subnetting.
- Troubleshooting konektivitas jaringan dan perangkat keras.
- Instalasi serta pemeliharaan Windows dan Linux.
- Mendukung maintenance dan monitoring harian.

PENDIDIKAN

SMK Ketintang Surabaya

Jurusan: Teknik Komputer dan Jaringan

2023 – 2026

SERTIFIKASI

- Linux System Administration Certification – Btech Academy, 2025
- Docker Fundamental Certification – Btech Academy, 2025
- Automation with Ansible Certification – Btech Academy, 2025

KEAHLIAN TEKNIS

- IP addressing & subnetting
- OSI layer & TCP/IP
- Konfigurasi LAN & Wi-Fi
- Troubleshooting jaringan dan hardware
- Instalasi Windows dan Linux
- Dasar administrasi server
- Docker dasar
- Ansible dasar
- PC assembly & basic repair
- Software installation & maintenance

KEAHLIAN PENDUKUNG

- Problem-solving
- Kerja tim
- Komunikasi
- Disiplin & tanggung jawab
- Cepat belajar

PROJECT

- Configured small-scale LAN network simulation
- Practiced Docker container deployment
- Performed subnetting calculations and network segmentation
- Assisted in resolving real user connectivity problems during internship
