PROFILE

Final-year Computer and Network Engineering student with hands-on experience in network configuration, IP addressing, and system troubleshooting. Experienced in LAN deployment, subnetting, Windows and Linux system administration, and basic containerization using Docker. Strong understanding of OSI Layer, TCP/IP model, and network fundamentals. Passionate about networking infrastructure and committed to continuous technical improvement. Seeking an entry-level Network or IT Support position to contribute technical skills and grow professionally.

INTERNSHIP EXPERIENCE

Network Technician Intern

PT Radnet Digital Indonesia

01 July 2025 – 30 November 2025

- Assisted in configuring LAN networks and internet connections
- Performed IP addressing and subnetting configuration
- Troubleshoot network connectivity and hardware issues
- Installed and maintained Windows and Linux operating systems
- Supported daily technical maintenance and monitoring

EDUCATION

Vocational High School (SMK Ketintang)

Major: Computer and Network Engineering

2023 – 2026

CERTIFICATIONS

- Linux System Administration Certification – Btech Academy, 2025
- Docker Fundamental Certification – Btech Academy, 2025
- Automation with Ansible Certification – Btech Academy, 2025

SKILLS

- IP Addressing & Subnetting
- OSI Layer & TCP/IP Model
- Protocol & Port Management
- LAN & Wi-Fi Configuration
- Basic Network Security Awareness
- Windows Installation & Troubleshooting
- Basic Linux Administration
- Basic Server Setup
- PC Assembly & Basic Repair
- Software Installation & Maintenance
- Docker (Basic Container Deployment)
- Ansible (Basic Automation)
- Problem-Solving
- Teamwork
- Communication
- Responsible & Disciplined
- Fast Learner

PROJECT

- Configured small-scale LAN network simulation
- Practiced Docker container deployment
- Performed subnetting calculations and network segmentation
- Assisted in resolving real user connectivity problems during internship
